

What's Next?

Let's Keep the Good Work Going!

ONA will push the boundaries for massive positive changes in Osborn. We will challenge the decision makers of Detroit to ensure their agenda is aligned with ONA. We will continue to serve as catalyst and convener and offer a platform for residents to take charge of their neighborhood.

In the next two years, we will:

- Grow our work in the areas of housing development, business development and afterschool programs.
- Increase awareness of early childhood resources in Osborn.
- Develop the first Outdoor Learning Center in partnership with Live In Osborn and the Greening of Detroit.
- Continue to provide Midnight Basketball and Boxing/Life Skills for our youth.
- Revitalize Calimera Park and install a mural on the Matrix Center building.
- And...**RENOVATE 50** homes for families in our neighborhood.

With your support we will achieve our goals and will become stronger and more sustainable than before.

Impact Statement

Osborn Neighborhood Alliance

Catalyst for Change

The ONA functions as an independent governing body that engages and empowers families to have all the resources and supports necessary to make their children successful. We offer an effective format for communication and cooperation between parents, residents, community leaders, business, clergy, law enforcement and school staff in the Osborn neighborhood. Since 2010 ONA has advocated for the neighborhood and played the role of knowledge broker, ensuring the voices of the youth and families are heard and their ideas about how to make positive changes are implemented. We have served hundreds of residents and partnered with many organizations to improve the quality of life in the Osborn community. We will continue to be a champion for Osborn, pushing boundaries towards large scale change in the areas of housing development, business development and afterschool programs.

- QUINCY JONES, EXECUTIVE DIRECTOR

"ONA has done an excellent job in keeping the neighborhood clean of blight . . . and by also bringing the community together with gatherings that encourage leadership. Thanks ONA for aiding the reconstruction of our neighborhood."

- Taju Diente Williams (12th Grade, Osborn High)

No longer are the days where residents wait to be "saved." Instead, they are engaged, challenging the status quo and improving conditions in the neighborhood.

"Osborn Neighborhood Alliance has helped my community by showing them just because the hope has been lost does not mean you can't work to retrieve the hope that once was there."

- Timberlery Williams
(12th grade, Osborn High)
